NOW ON-LINE! www.apachestainless.com/document-access

We have created a secure, easy access document storage website for your compliance information.

On-Line Document Access

- Password access is given by company name (on your PO) with a password reset every six months
- Set up engineering and compliance team for access
- All your documentation packages in one folder
- Receive email notifications when new documents are added

Here's What You Do:

- 1.**
Fill out the form at apachestainless.com/document-access.
- 2.**
Receive an email within 24 - 48 hours to set up your password.
- 3.**
Use the link in the email or log into www.apachestainless.com/document-access to enter your password and download your documents.

FAQs

What kind of access to I have?

Customers have download access only, so files cannot be accidentally deleted.

Can past jobs be added to my folder?

We can upload a few recent documents to your folder, however entire backdated archives cannot be included at this time.

I manage documents on a corporate level, can I have access to all subsidiary company folders?

Yes, communicate that to your sales manager so we can set up your account with special access.

Will I continue to receive other download links to TOP packages? No, there is no longer a need to email these large files or use FTP sites, you can access your documents any time.
